GRANTS TO CLUBS

I am writing on behalf of the five trustees of the NRU Youth Trust, to all members of the Northumberland Rugby Union's General Committee, and to the Chairs of the youth sections of all the clubs in the county to invite their clubs to apply for financial assistance from the NRU Youth Trust for youth-related projects. (For Trust purposes "youth" means persons aged 21 years or under).

In recent years we have seen a reduction in applications for grants from individual clubs, and the trustees are keen to encourage specific activities needing funding support.

The range of items and activities for which grants have been made in the past include rugby equipment, safety equipment, rugby posts, coaching assistance, team set-up costs etc. (The trustees are unable to support large capital projects, and will only pay travelling expenses for teams representing the County in National competitions, but are otherwise open to a whole range of ideas).

So, because of the reduction in requests, the trustees are keen to welcome new individual club applications for youth-related projects. Applications, with an indication of the estimated costs, should be addressed to me or any of the other four trustees.

There is no time limit on applications, which can relate to the current season or to preparations for next season.

Douglas Hamilton
Trustee
