Subject: Stem Cell Presentation

Good Afternoon (Club Reps)

The emotive presentation given by Niall Head-Rapson at the General Meeting at Tynedale on 20th January 2025 demonstrated that lives can be saved through a simple cheek swab and completion of a consent form to share details to the stem cell register.

It is our intention to use the Representative program to raise awareness and I hope we can challenge ourselves to invite Niall to every Northumberland club to deliver the presentation and collect the samples over the coming months.

Would you be kind enough to share this information throughout your clubs remembering the target audience is 16 to 30 male and females?

I'd be grateful if clubs can keep us updated with progress by emailing Claire so we can share to our social media platforms to raise awareness.

Any queries can be directed to Niall at nhr@mcdanielslaw.com and 07881 504903.
